In Memoriam.

In cherished remembrance of our dear son, the late Private Robert R. Webster, who paid the supreme sacrifice July 20, 1918, buried in American cemetery, No. 1764, Belleau, Aisne, France. Inserted by father, mother and brothers.

Yes, the dreadful message came; Father took it at the door—"Private Webster killed in action"—That was all it said, no more.

In the house, dry-eyed and peaceful. Grief and pride the story told, People passing paid a tribute—When the blue star turned to gold.

His duty he has nobly done, The right he strove to save, His presence from this earth is gone, But honor crowns his grave.

HEALTH INSURANCE

Some people are naturally thin. There is also a natural pallor but most people who are both thin and pale are far from well and they need a tonic.

Many people neglect to take a tonic until they get so sick that a tonic is not sufficient just because the demand of the debilitated body is not insistent enough. The pale face, weak nerves, enfeebled digestion are neglected until the point where pain or actual breakdown requires medical treatment. A tonic taken in time is the best health insurance. It supports the overtaxed system and the worried nerves until nature can make repairs.

Build up the blood and you are sending renewed health and strength to every part of the body. The appetite is improved, the digestion is toned up, there is new color in the cheeks and lips, you worry less, become good natured where before you were irritable and you find new joys in living.

Tonic treatment is useful in dyspepsia, rheumatism, anemia and nervous disorders. In many cases it is all the medical treatment that is required.

The free booklet, "Building Up the Blood" tells the whole story and will be sent on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or they will be sent, postpaid, on receipt of price, 60 cents per box.—Adv.
